

## November 2018 Happy Thanksgiving

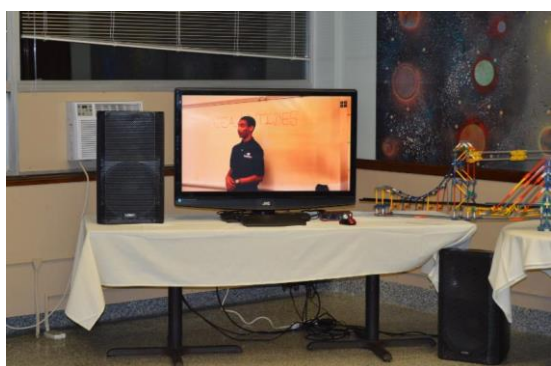

### Thank You to all who supported Ocean Tides Open House and Reception 2018

Thank you to all who came to Narragansett to help us celebrate our young men, the programs and services we offer while also showcasing some of the work of our young men in our school program.

Our Culinary Arts students did a wonderful job behind the scenes preparing food for everyone to enjoy, as well as serving and at the carving station.

An outstanding aspect of the evening was current young men able to spend time with Ocean Tides alumni. No better way to motivate them to success than with the peer example of someone who has been on the same journey. That Ocean Tides' alums continue to come back speaks loudly of the care, programs and services provided here for so many years.

We also featured a special showcase of works completed as part of our school program. Bridges built in geometry class, various items from the wood technology program, a fully operational, student-built computer, student created murals from our expressive arts program, a music video from our new music program, and much more.

---

### Ocean Tides Data and Information 2017-2018 Academic Year Providence Campus Day School Program
