|---|------------|
| Average Grade Equivalency Improvement for the Reading per student | 1.5 Grades |
| Number of Students who improved GE | 72% |
| Number of Studentes who improved 2 or more grades | 39% |

The Ocean Tides School Providence Campus is an alternative day school for young men in grades seven through twelve. Offering a full high school Rhode Island Regents diploma, the school is licensed by the Rhode Island Department of Education (RIDE) and accredited by the New England Association of Schools and Colleges (NEASC). Additionally, the Providence Campus offers a certified special education program and a career/technical education program. The student body at the Providence Campus is comprised of boys referred by their school district for educational purposes (both regular and special education) and career/technical training. Given the severe educational difficulties these students have experienced in the past, Ocean Tides seeks to provide creative, individualized programs that meet the needs of all students.

At Ocean Tides, we have a strong record of program success. To create that success, we offer you:

- Highly qualified faculty with specialized training in differentiated instruction and blended learning strategies.
- Compliant with CCSE standards and practices and affiliated with URI, CCRI and RIDE vocational education programs.
- Career and Technical Educational Experience Centered Curriculums

- SEL – The first Non-Public Private School in Rhode Island to offer a class in Social Emotional Learning – Allowing our students to voice their concerns and work together to be heard.
- We fully participate, proctor and follow IEP guidance of all Statewide testing, PSAT and SAT assessments.
- Grade appropriate RIDE curriculum in Language Arts, Social Studies, Math, Science, Fine Arts, Occupational Education, and Physical Education in a small, intimate, yet casual, high school setting.
- Mainstream academic programs, with departmentalized instruction meeting RIDE diploma requirements.
- We offer a full credit recovery and placement into our OT Graduation Acceleration Program (GAP) monitored by our certified guidance department, to allow a student to graduate in as short a time possible within our RIDE Diploma issuing authority as a RI High School.
- One of the only school programs statewide - Our school is licensed both by the Rhode Island Department of Education (RIDE) and accredited by the New England Association of Schools and Colleges (NEASC).
- Highly trained school safety counselors able to support each student's attainment of positive school behaviors.
- Full therapeutic staff counseling and supporting Positive Behavioral Interventions and Supports (PBIS). These are incorporated into comprehensive behavior management strategies to keep the student progressing.

For more information, to arrange a tour, to book a meeting, to plan a referral, or to just discuss what new we can do for your needs, please contact Principal, Charles Couto, or Special Education Director, Kevin Plunkett.
